EDUCATION

York University

Toronto, ON

B.A.Sc. in Digital Technologies (Dev Degree)

Sep 2026 – Present

- Fast-tracked, application-based Computer Science program designed and delivered in collaboration with Shopify.
- Integrates rigorous academic theory with 3,800+ hours of embedded software engineering experience on production teams.

Victoria Park Collegiate Institute

Toronto, ON

IB Diploma Candidate | Academic Average: 96%

Sep 2022 – Jun 2026

- HL Coursework:** Mathematics AA, Computer Science, English Literature
- Research:** Benchmarked ML-based Intrusion Detection Systems (Random Forest, SVM) against traditional cybersecurity models to measure classification efficiency.

WORK EXPERIENCE

Dev Degree Intern

Sep 2026 – Present

Shopify

Toronto, ON

- Selected for Shopify's developer program, completing 5 engineering rotations across production teams.
- Ship production-ready code for scalable web features reaching millions of merchants globally.

Junior Automation Engineer

Jun 2025 – Jul 2025

Math Potentials

Remote

- Engineered a custom Python chatbot that reduced incoming support ticket volume by **95%**.
- Automated grading data entry and email dispatch workflows, saving **10+ hours per week** in manual administrative effort.

Software Engineer Intern

Jul 2023 – Jun 2025

STEM-E Youth Career Development

Remote

- Architected and maintained 3 full-stack educational web applications using Flask, React, and SQL, serving active student cohorts.
- Collaborated with cross-functional teams to execute 5+ production software releases and optimize UI components.

Operations Coordinator

Sep 2025 – Present

CUTC Foundation

Toronto, ON

- Managed operations for CUTC 2026 (500+ attendees, 15+ sessions) as Canada's largest undergraduate tech conference.
- Designed and instructed Generative AI workshops, achieving a **92% attendee satisfaction rating**.

Logistics Executive

Sep 2025 – Present

Hackathons Canada

Remote / Hybrid

- Directing operational planning and venue logistics for Hack Canada 2026 across 12+ vendors for 1,000+ applicants.

Hackathon Lead Organizer

Jan 2025 – Oct 2025

Hack Club

Toronto, ON

- Organized two city-wide hackathons for 200+ total participants, securing **\$20,000+** in corporate sponsorships.
- Managed end-to-end event operations, budget allocations, and sponsor partnerships.

SELECTED PROJECTS

Automations Dashboard | *Next.js, TypeScript, Supabase, Microsoft Graph API* | *Live Demo*

2026

- Developed an AI email processing suite featuring automated thread summaries, context-aware draft generation, and real-time database sync via Supabase.

Panther Press Digital | *Astro, React, Cloudflare Pages* | *panther-press.pages.dev*

Sep 2024

- Built a digital publication platform serving 200+ monthly readers, featuring custom CMS integration for streamlined content publishing.

mapSTEM iOS | *Expo, React Native, Eventbrite API, CoreLocation*

Jul 2024

- Created a native location-based iOS event aggregation app, using local caching strategies to reduce API payload overhead by **40%**.

AWARDS & DISTINCTIONS

2nd Place, William Lyon Mackenzie CI Coding Competition

Feb 2026

Bronze Medal, CALICO Informatics Competition (UC Berkeley)

Dec 2024

Distinction, Canadian Computing Competition (University of Waterloo)

Jun 2024

3rd Place, Electronic Recycling Association (ERA Scholarship)

2023

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, SQL, HTML/CSS

Frameworks: React, Next.js, React Native, Svelte, Astro, Flask, Node.js

Tools & Platforms: Git, GitHub, Supabase, Firebase, Cloudflare Pages, Azure, Vercel
