EDUCATION

York University <i>B.A.Sc. in Digital Technologies (Dev Degree)</i> - Fast-tracked, application-based Computer Science program designed and delivered in exclusive collaboration with Shopify. - Integrates rigorous academic theory with 3,800+ hours of embedded software engineering experience on production teams.	Toronto, ON Sep 2026 – Present
Victoria Park Collegiate Institute <i>IB Diploma Candidate Academic Average: 96%</i> HL Coursework: Mathematics AA, Computer Science, English Literature Research: Benchmarked ML-based Intrusion Detection Systems (Random Forest, SVM) against traditional cybersecurity models to measure classification efficiency.	Toronto, ON Sep 2022 – Jun 2026

WORK EXPERIENCE

Dev Degree Intern <i>Shopify</i> - Selected for Shopify's developer program, completing 5 engineering rotations across production teams. - Ship production-ready code for scalable web features reaching millions of merchants globally.	Sep 2026 – Present Toronto, ON
Junior Automation Engineer <i>Math Potentials</i> - Engineered a custom Python chatbot that reduced incoming support ticket volume by 95%. - Automated grading data entry and email dispatch workflows, saving 10+ hours per week in manual administrative effort.	Jun 2025 – Jul 2025 Remote
Software Engineer Intern <i>STEM-E Youth Career Development</i> - Architected and maintained 3 full-stack educational web applications using Flask, React, and SQL, serving active student cohorts. - Collaborated with cross-functional teams to execute 5+ production software releases and optimize UI components.	Jul 2023 – Jun 2025 Remote
Operations Coordinator <i>CUTC Foundation</i> - Managed operations for CUTC 2026 (500+ attendees, 15+ sessions) as Canada's largest undergraduate tech conference. - Designed and instructed Generative AI workshops, achieving a 92% attendee satisfaction rating.	Sep 2025 – Present Toronto, ON
Logistics Executive <i>Hackathons Canada</i> Directing operational planning and venue logistics for Hack Canada 2026 across 12+ vendors for 1,000+ applicants.	Sep 2025 – Present Remote / Hybrid
Hackathon Lead Organizer <i>Hack Club</i> - Organized two city-wide hackathons for 200+ total participants, securing \$20,000+ in corporate sponsorships. - Managed end-to-end event operations, budget allocations, and sponsor partnerships.	Jan 2025 – Oct 2025 Toronto, ON

SELECTED PROJECTS

Automations Dashboard <i>Next.js, TypeScript, Supabase, Microsoft Graph API</i> <i>Live Demo</i> Developed an AI email processing suite featuring automated thread summaries, context-aware draft generation, and real-time database sync via Supabase.	2026
Panther Press Digital <i>Astro, React, Cloudflare Pages</i> <i>panther-press.pages.dev</i> Built a digital publication platform serving 200+ monthly readers, featuring custom CMS integration for streamlined content publishing.	Sep 2024
mapSTEM iOS <i>Expo, React Native, Eventbrite API, CoreLocation</i> Created a native location-based iOS event aggregation app, using local caching strategies to reduce API payload overhead by 40%.	Jul 2024

AWARDS & DISTINCTIONS

2nd Place , William Lyon Mackenzie CI Coding Competition	Feb 2026
Bronze Medal , CALICO Informatics Competition (UC Berkeley)	Dec 2024
Distinction , Canadian Computing Competition (University of Waterloo)	Jun 2024
3rd Place , Electronic Recycling Association (ERA Scholarship)	2023

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, SQL, HTML/CSS
Frameworks: React, Next.js, React Native, Svelte, Astro, Flask, Node.js
Tools & Platforms: Git, GitHub, Supabase, Firebase, Cloudflare Pages, Azure, Vercel
